A glimpse of past completed projects

Consular Club HCMC

Since 1994, the Consular Club of Ho Chi Minh City has been dedicated to improving the quality of life of vulnerable populations in Southern Vietnam. We focus on neglected areas of **education, health and basic needs**, with an emphasis on advancing gender equality and sustainability. From providing scholarships to girls with disabilities to funding climate resilient housing, we support projects that ease the difficulties of at-risk groups and empower them to strive for a better future.
